SCENES IN CITY DURING THE DAY.

Clinton De Priest, a United States Supervisor, and Four Marshals Arrested and Put in Jail, But Bailed by Judge Witt. A Slight Trouble in Jackson Ward, The Whole Vote in Richmond

by Precincis-Incidents.

Election day of 1892, so big with destiny to Virginia, the South and the nation, dawned clear and bright.

The weather was perfect, and springlike. The children played about the parks and front yards of residences, and

Everywhere, in all the wards, the vote was polled bright and early, and the Democratic citizen went to his office, or shop, or wherever his daily labor called him, feeling that he had done his duty. And he was satisfied that later on he

would see the returns promptly and fully displayed by The Times.

Jackson ward was the one in which most interest centred.

The Commercial Travelers' Democratic Club had committees in that ward. So did the Powhatan Club. And they, all of them, worked hard and faithfully for the party's welfare.
Numbers of other good Democrats not

in these clubs were in that ward, ready and willing to help out their brethren, if their hands should grow weary in well-

At all the places for voting through this ward they came early to vote, and stayed patiently in line. But there was no enthusiasm like that which generally It is a quite sure thing that, but for the care and watchfulness of the challengers for the Democratic party in this ward,

many negroes, without right to vote, would have voted.

At the Second precinct of Jackson ward yesterday Captain Alex. B. Guigon, a Democratic challerger, was arrested by request of Clinton De Priest, a United

States supervisor, on the charge of in-terference with voters.

Captain Guigen was bailed by Harvey Wilson, United States comissioner, to

Appear on Friday morning, in \$500.

He came back at once to the polls,
and was again vigilant in looking out for
the interests of his party.

He was arrested again later on. This
happened because after returning from

his first arrest he made the point that be Priest was not a voter at this pre-

cinct, though he was supervisor there.

Consequently his commission as such was invalid, and he might be arrested if he attempted to exercise any authority. At De Priest's Instance he was again arrested, bailed and went back once

As early as 7 o'clock crowds of people began their march to the Tenth-street front of The Times building.

A huge sheet had been suspended from oof to basement of the Shafer building, opposite, and returns from the States were promptly thrown upon it by means of a stereopticon, the lens of which threw a light equal to 2,000 candles. It was operated by Mr. H. P. Hutchinson, of Washington, D. C.

Joyed them, be sure.

How they sung and gave yell after yell. Here is one of the songs, the most popular one, and the words floated up clearly to the pencil-pushers on the fifth floor of The Times building through the night air:
Air-"The Sweet Little Baby" song

DeWolf Hopper and cute little Della Fox have made so famous. "Grover, Grover, four more years of

Grover. In we go, out they go,

Then we'll be in clover." (Repeat ad lib. or until your lungs give out. That was the rule last night.)
Then one individual of great power of
wind would yell: "What's the matter
with The Times?"

There was nothing wrong with that paper, judging from the reply from 5,000 throats, and it was: "The Times is all right." Then when the crowd rejuctantly went home, long after midnight, before they started they gave three rousing

cheers for the paper.
For all which thanks, fellow-citizens The Times tried to give you the news, and give it to you first, and in good style. At a late hour last night it was learned that Mr. W. H. H. Miller, late law partner of President Harrison, and now Attorney-General of the United States, has directed that Judge Waddill be specially employed to prosecute Captain A. B. Guigon, whose arrest yesterday has been

The vote was polled early in the day, and at several precincts the negro voters came the night before and camped out near the polls. They built fires to keep warm, and were, consequently, on hand bright and early to vote. Below is the result by districts:

RELIEF OF THE POOR.

The Quarterly Meeting of the Committee. Much Important Business.

The Committee on Relief of the Poor held its quarterly meeting at the City Almshouse last evening. Chairman Bowden and Messrs. Reeve, McDowell and Gibson were present, and a good deal of

Gibson were present, and a good deal of routine business was transacted.

The report of Superintendent Carter showed that during the month of October the following deaths occurred among the poor of the city: White children, 1; colored children, 19; total, 20. In the almshouse: White adults, 2; white children, 1; colored adults, 8; colored children, 2; total, 11. The number of inmates at the almshouse on September 20th was 255. THE WATER QUESTION.

A Report to the common Council from Su

perintendent Belling. At the meeting of the Common Council on Monday evening the Committee on Water, through its chairman, Mr. J. W. White, submitted a report of Superintendent Charles E. Bolling, setting forth the importance of increasing the pumping capacity of the Water Department and laying a 48-inch water main to the city. The report contains the following points, to which Mr. Boiling calls the attention of the Committee on Water:
"It is my duty to bring to the atten-

tion of the Committee on Water the im-portance of increasing our pumping ca-pacity. The necessity for an early addi-tion has been most plainly expressed in the past two months, when day after day our entire machinery has been worked to its fullest capacity to meet the de-mand for water, and had an important part of it broken down at that time, which would have required as long a time as four days to restore it, would have been a scarcity of water in

"The river has been so low for the past two months that we could only get from the Old pump-house from two to three millons of gallons per day, insufficient for the filling of Marshall reservoir, and we had to draw from the New reservoir, thereby adding to the demand upon the new pumps, already overburdened, and, therefore, had constantly to run the steam pump, which has averaged working about fifteen days in each of the past two months. It can be readily under-stood that the best pumps fall short after long use of their original efficiency, owing to the wearing of the various parts, especially the valves, and I find by actual measurement of water delivered into the reservoir that our new water-power numps are short of their original capacity about 25 per cent., making their present delivery about nine million gallons per

The steam pump, with an original capacity of six millions, will now deliver about five millions, so, in summary, with the river too low to run all our old pumps, the total daily pumping capacity was sixteen million gallons.

From actual measurement of the water drawn from the reservoirs the daily consumption has been as great as fifteen millions, so that in the event of any serious accident our water supply would have been endangered. I would recommend that steps be taken at once to increase our pumping capacity by constructing additional pumping machinery of twenty million gallons capacity. In deepening and widening the canal from the Three-Mile locks to Bosher's Dam provision was made to bring down more water-power than at the time was needed, and I am nfident that this addition can be made at the New pump-house with our present excess of power at that point.

It will take from twelve to eighteen months to construct such a plant and lay a pump main to the New reservoir, so it will be seen that there is no time to lose, considering the rapid increase of our consumption.

'In this connection we should consider the necessity of laying a 48-inoh main from the reservoir to the city in order to increase the pressure of water at various high points in the city. Not a day passes that some one does not make complaint on account of the water pressure being so low, and many of our citizens just cause. I have recently reported fully to the Council on this matter, and recommended as a remedy the general intro-duction of meters, and submitted an ordinance in connection with the report. So far no action has been taken by the Council, and I desire to make known to

your committee our exact condition.

There is one thing very plain, something must be done, or we may at an early date be reduced to the same straits we were in 1881. I would also state that the constant working of the steam pump, averaging about fifteen days per month, will entail increased cost of oing, as we will have to expend about \$600 per month for the purchase of coal.

At the close of the entertainment the members of the lodge and their guests re-paired to the dining-room, where, on five long tables, an elegant supper was served by Mr. William H. Zimmermann, Letters of regret for being unable to take part in the celebration were read by Mr. Goode from Grand Master William H. Pleasants and Grand Junior Warden Alfred R. Courtney. A number of impromptu speeches were made by some of the members, and everybody present was well satisfied with the manner in which the centennial of St. John's Lodge had been celebrated.

Elaborate Arrangements Made at National Democratic Headquarters.

NATIONAL COMMITTEEMEN

Evince Much Satisfaction at the Gains in New York State-What They Think About Other States.

NEW YORK, Nov. 8 .- The national Democratic committee made elaborate arrangements for receiving the returns at Democratic headquarters. The front doors were closed, and no one allowed in except by the rear and with a ticket. Chairman Harrity, ex-Secretary Whitney, Secretary of the Committee Sheerin and Committeeman Smalley gathered in the telegraph-room early and amused themselves by telling stories during the feverish wait for tidings.

The wires began to tick at 6:20 o'clock. The first news was 72 election districts in New York city out of 1,137 gave Cleveland 9,730; Harrison, 5,632. Then the re-turns by bunches of election districts in New York city began to pour in. They indicated at first that, in the same ratio, Cleveland's majority would be about Then the Democratic majority ran

along steadily, about one-fifth of the en-tire vote indicating a vote of about the same as last election. Then it got up to 390 election districts, giving Cleveland 55,407 and Harrison 31,158. Chairman Har-rity remarked: "That looks better. We are all right if it keeps along at this The big Democratic districts have not been given yet."

When it was announced that 520 districts had given Cleveland 73,661 and Harrison 41,970 there was unqualified satisfaction expressed. The first news from outside of New York city was from Brocklyn, ten districts of which gave Cleveland 1,736 and Harrison 895.

From Virginia came the news-ten courties give a Democratic majority of

What was eagerly looked for, was news from up the State. The first that came was regarded as very cheering. It was. "Jamaica, three districts give Cleveland, 470; Harrison, 207." At 7 o'clock the word came that fifty districts gave Cleveland, 2072; Harrison, 7011. This created word came that fifty districts gave cleve-land, 7,927; Harrison 7,011. This created great joy and caused much comment. "It looks like a landslide in Kings," was remarked. "Wait a while," said saga-clous Chairman Harrity. "I am afraid the Republican districts have to come

At 7:15 the national committee had further cause for satisfaction, by the statement "Eighteen districts outside of New York city give Cleveland, 1,669; Harrison, 2,782." The reason for congratulation was that

indicated a light vote up the State, as in 1888 the figures were: Cleveland, 1,812; 1888 the figures were: Cleveland, 1,812; Harrison, 3,063. "We will have 25,000 majority in Kings county," said Chairman Harrity at 7:30. The news that Living-ston county showed a Republican loss of 30) was received with exclamations of 30) was received with exclamations of surprise. "The State is ours for sure," and "we will have over 100,000 to the bridge," was what the committee proclaimed

The famous Sergeant-at-Arms Jimmle Oliver, of Paradise Park, created the furor of the early part of the evening by bursting into the committee-room and exclaiming: "Gentlemen, down where I live, the Fortieth election district of the Second assembly district, gives Cleveland, 388; Harrison, 4; and where those four votes came from I don't know." Jimmie's announcement was heartily

The first black eye came in at 8 o'clock. It was from Suffolk county, and showed a Republican gain of over 200 over the vote in 1888. "The clam-diggers have got vote in 1888. in their work. That is on account of Governor Flower's stand in the Fire

Island matter" was the explanation This slight set-back was offset by the next news, that of Queens county, which gave a Democratic plurality of 900 more

than in 1888. Slight surprise was expressed at the first tidings from Buffalo, Lieutenant-Governor Sheehan's home, 40 districts out of 128 giving Cleveland 7,782; Harrison, 8,719. This gain was more than counterbalanced by the word that Chautauqua county gave Harrison orly 5,500 majority, a falling off of 530 since 1888. There was considerable cheering when it was announced that Weaver had carried Oregon, and there was more cheering still when a telegram was read that the State of Washington probably went for Cleveland. This was idly followed by the returns from 890 city election districts, showing a Democratic majority of 58,588, which created great excitement. The returns from the in-terior of the State came pouring in, showing a Republican loss in nearly every

Chairman Harrity was overwhelmed with congratulations, but he would not amit himself. "It looks very much like a Republican

slaughter," he said, "but it is too early in the game yet to shout."

Much amusement was caused by the re-turns from Gravesend, where John T. McKane is supreme, showing Cleveland 2,947; Harrison, 290. As the returns came into National Dem-

ocratic headquarters they were dupli-cated by special wire to Mr. Cleveland at his house on Fifty-first street. at his house on Fifty-first street.

At 11:45 o'clock Chairman Harrity gave out the following statement: "There is no doubt of the election of Cleveland and Stevenson by the popular vote. While the defeat of Harrison is certain, New York has given a magnificent plurality for Cleveland and surpasses all her previous records. There is no break in the South. Republican claims for Delaware are unfounded. In Connecticut the returns show a steady advance over the figures of 1888, when we carried the State. Indiana is undoubtedly ours. The most glorious results appear to be in Illinois, where from the returns it would seem that for the first time in its history the State has gone Democratic. We have

State has gone Democratic. We have won the most glorious and decisive victory in the history of campaigns."
Governor Flower at 11:30 o'clock claimed 40,000 majority in New York State for Cleveland, based, he said, on most careful analysis of the returns.

At Kennblican Hendquarte NEW YORK, Nov. 8.-When at 10:35 o'clock the announcement was made that Indiana had gone Republican by 10,000 majority, the enthusiasm knew no bounds. The crowd by this time were wild at the good news announced. From some men who crowded their way through the mass of yelling, singing, enthusiastic, it was learned that the same enthusiasm was existing down town among the Democrats, but naturally the news was discredited among the men who were almost to a man Republican.

As the reports continued to arrive saying that State after State was falling the line for Harrison, the growd because

ing that State after State was labing into line for Harrison, the crowd became more and more demonstrative. At 10:35 the announcement was made that Chairman Carter did not concede the State of New York. He sent a message to President Harrison saying: "We have them dead."

A little later he sent word down to the waiting crowd from his nest on the third floor that his cry was "Ben., Ben., Ben., Harrison." The crowd took up the cry and gave it with a will.

At 10:40 Colonel Swords sent word down-stairs that they did not give up New York to the Democrats by any means. That, of course, was in accord with the prevailing feeling. They were claiming everything, and to show their happiness the crowd sang campaign songs be-tween the times of announcements.

CLAIMS OF THE LEADERS.

Mr. Dickinson on the Result-Chairman Carter Dies Hard.

DEMOCRATIC NATIONAL HEAD-QUARTERS, NEW YORK, Nov. 9 .- Mr. Don M. Dickinson, chairman of the Democratic campaign committee, said at 1

A. M.:
"We do not desire to boast of the result. The grand result speaks for itself. It shows that the producers of the country have determined that they shall be no longer burdened by excessive taxation for the benefit of great monopolists and are determined to uphold local rights against the abuse of centralized power. In Michigan we have achieved a great success in electing a Governor and seven presidential electors. The uprising in the Northwest is the most significant sign of the times, but in view of the splendid performance of New York, New Jersey and Connecticut there is nothing sectional about the victory, which is a success for sound political and economic principles everywhere.'

Republican Claims. NEW YORK, Nov. 8.—At midnight Chairman Carter, of the Republican com-mittee, said:

"The abnormal Democratic majorities in New York and Brooklyn will be difficult to overcome by Republican gains throughout the State. Our Democratio friends seem to have understood their party needs in the State of New York when they enacted the present ballot law. Fortunately, the National Committee re-lied upon three distinct combinations, and two of them yet remain intact, even if the loss of New York be conceded. With Indiana, the election of Harrison is assured, and the Republican victory in that State is certain. I am in receipt of a telegram from a reliable and thoroughly posted citizen of Indiana, who says: 'Full Republican vote has been polled throughout the State, and returns up to 10 o'clock to-night indicate Republican gains, and the committee is confident the State

"The vote of Indiana, added to other Republican votes in the electoral college, insures the re-election of President Har-Eliminating entirely from consideration the State of New York, the Republicans can still elect, with the vote of Connecticut, West Virginia and Delaware, without the vote of Indiana. But having the vote of Indiana assured, we are not driven to our third line. Benjamin Har-rison will be the next President of the United States by virtue of the fact that he will receive a majority of the votes cast in the electoral college, in obedience to the decision of a majority of the people of the respective States."
